## SUMMARY

- Full stack web developer with a background in security and criminology.
- I recently earned a certificate in full stack web development through the Coding Boot Camp at the University of Sydney, with newly developed skills in HTML, JavaScript, CSS and responsive web design.
- Creating websites and applications for disadvantaged and marginalised users motivates me to continue to think outside the box and come up with creative, agile solutions.
- I'm hard working and a fast learner, with a passion for web development and creating secure, responsive websites and applications.
